

# Queensland Bluestone gets Intensifia-ed

**Surface Type:** Sandstone | **Products Used:** Intensifia™ | **Completed:** June 2016

**Accredited Applicator:** Australia Blue | **Email:** johrina@australiablue.net |

**Website:** [www.australiablue.net](http://www.australiablue.net) | **Phone:** 0414 858 185

## THE PROJECT:

Homeowners in the Clayfield suburb of Queensland, Australia wanted to rid their blue stone of its lackluster appearance and restore its natural beauty by intensifying its color. They also wanted to seal the beautiful stone in order to protect it from water and oil based stains without affecting the slip resistance of their walkway.

## SPECIAL REQUIREMENTS:

- Intensify and restore natural color
- Protect and enhance stone
- Deep color enhancement
- Super oil and water repellence for superior stain protection
- Long lasting, even under UV light. \*5 year Performance Warranty when INTENSIFIA™ is applied by an Accredited Applicator
- Easy to apply, and able to be reapplied at any time to a clean surface
- Retains surface hardness and wet slip resistance

## THE DRY-TREAT SOLUTION:

Johrina at Australia Blue recommended Dry-Treat's INTENSIFIA™ for deep enhancement and stain protection. INTENSIFIA™ is the ultimate combination of enhancer and sealer. Natural stone, masonry and other hard porous materials will have deep, long lasting color enrichment and premium water and oil-based stain protection. A 5-Year PERFORMANCE WARRANTY is offered when INTENSIFIA™ is applied by an Accredited Applicator and surface is maintained reasonably, as outlined in our warranty document. It also retains surface hardness and wet slip resistance of porous flooring materials.
