

CONCRETE PAVERS

PROTECTION & MAINTENANCE PRODUCTS

STAIN-REPELLA™

Penetrating, invisible and breathable water-based sealer which protects porous surfaces against stains and keeps them looking great. Benefits include:

- Super oil and water repellence for premium stain protection
- Makes cleaning easier
- Retains natural color and finish
- Easy to use, water-based
- Zero VOC, LEED compliant, PFOA and PFOS-free
- Suitable for indoor / outdoor use

PAVER-FINISHA™

Advanced new technology color enhancer for highly porous concrete pavers. Benefits include:

- Intense color enrichment
- Premium protection against staining and efflorescence
- Not a topical coating. Replaces traditional acrylic, urethane and epoxy coatings - no fading, yellowing/whitening, cracking and peeling
- Strengthens polymeric sand and makes it water repellent
- UV stable - lasts approximately 5 years, then recoat - no stripping required
- Ultra low VOC, LEED compliant

OXY-KLENZA™

Powerful oxygen-based, chlorine-free cleaner. Oxy-Klenza™ is a multi-purpose cleaner that breaks down organic stains and soiling.

- For natural stone, concrete, tile, grout, paving, brick and other hard surfaces
- Removes stains from mold, oils, food and general grime
- Triple action: oxygen + alkaline + detergent
- Neutralizes odor

EFF-ERAYZA™

New technology powerful, safer acid cleaner for removing efflorescence, grout haze, rust stains and mortar mess.

- The strength of muriatic acid but safer to use: doesn't release toxic, dangerous fumes and temporary skin exposure does not cause burns
- Suitable for non-acid sensitive stone, paving, tile, brick and masonry
