

# SPECIALIST SEALERS AND CLEANERS FOR NATURAL STONE, TILE, PAVING, CONCRETE, BRICK AND GROUT

Protect

Enhance

Clean & Restore

# ABOUT HANAFINN™

## SPECIALIST SEALERS AND CLEANERS FOR ALL NATURAL STONE, TILE, PAVING, CONCRETE, BRICK AND GROUT

HANAFINN™ sealing and cleaning products offer cutting edge performance, and are a safer, easier to use and more environmentally responsible choice.

The HANAFINN™ range includes products for stain protection, color enhancement, heavy duty cleaning, stain removal and everyday cleaning of porous surfaces, including kitchen and bathroom surfaces, patios, entertaining areas, building facades and pool surrounds.

HANAFINN™ sealers and cleaners are designed for domestic and commercial use.

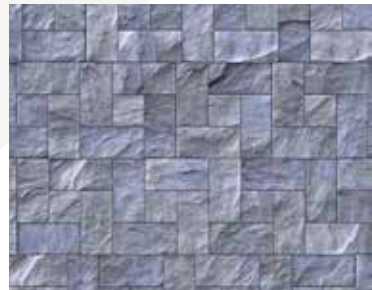

## PERFORMANCE, SAFETY AND ENVIRONMENTAL RESPONSIBILITY

There has always been a divide between products which work and products which are safe and environmentally responsible. But, sealers and cleaners don't need to overwhelm you with powerful smelling toxic chemicals to work well.

The HANAFINN™ range is created by Dry-Treat, the world leader in impregnating sealer technology. HANAFINN™ products use cutting edge technologies to provide improved performance and a new standard of safety and environmental responsibility.

## EASE OF USE

HANAFINN™ products help homeowners and professionals to get great results with minimal fuss.

**HANAFINN™**  
Solutions for beautiful surfaces

## PAVER-FINISHA™

### Advanced, color enhancer & sealer for highly porous concrete pavers

- Intense color enrichment
- Premium stain & efflorescence protection
- **Paver-Finisha™ is not a coating.** Paver-Finisha™ is a breathable alternative to acrylic, urethane & epoxy coatings which whiten / yellow / crack / peel over time
- UV stable - lasts approximately 5 years depending on surface use and traffic
- Strengthens polymeric sand and makes it water repellent
- **NO STRIPPING REQUIRED** - when sealer wears, clean the surface and recoat
- Use indoors / outdoors; domestic / commercial applications

#### Suitable surfaces include:

- Highly porous concrete pavers, masonry and grout  
*(Dry-Treat INTENSIFIA™ should be used on natural stone and other medium / high density materials)*
- Floors, driveways, garages, paths, patios, pool surrounds, entertaining areas, etc

#### Safety and the environment:

- LEED compliant: Low VOC - less than 30g/L
- PFOA and PFOS free

## STAIN-REPELLA™

### Penetrating sealer for natural stone, tiles, pavers, brick, concrete and grout.

- Superior stain repellence
- Treated surfaces stay looking good & are easier to maintain
- Treated surfaces retain natural color, finish and breathability
- Easy single coat application
- Lasts approximately 5 years depending on surface use and traffic
- Water based, low odor
- Use indoors / outdoors; domestic / commercial applications

#### Suitable surfaces include:

- All natural stone, tile, brick, paving, concrete, masonry and grout
- Floors, driveways, patios, paths, building facades, bathrooms, kitchens, stone countertops, pool surrounds, garages, eating and entertaining areas

#### Safety and the environment:

- LEED compliant: Zero VOC
- PFOA and PFOS free

## OXY-KLENZA™ PLUS

### Outdoor surface shampoo for natural stone & other hard surfaces. Heavy duty cleaning, stain removal

- New power foaming formula
- Triple action foaming cleaner - oxygen + alkaline + detergent
- Cleans grime & stains caused by oil/grease, mold, leaf marks, food and beverages
- Can be used to make poultices for removing deep / old stains
- 100% powder concentrate
- Use a single 2.2lb / 1kg bottle for heavy duty cleaning of up to 500 sq ft / 50 sq metre patio
- Breaks down odors
- Use outdoors; domestic / commercial applications

#### Suitable outdoor surfaces include:

- All natural stone, tile, grout, paving, brick and other hard surfaces
- Patios, building facades, pool surrounds, public spaces, garages, driveways, eating and entertaining areas

#### Safety and the environment:

- Hyper-biodegradable ingredient decomposes in minutes into oxygen
- Powder concentrate is safe to transport
- Safer to use and gentler on skin than traditional alkaline / caustic cleaners

## REJUVENATA™ ACTIVE

### Active enzyme cleaner - regular mopping, heavy duty cleaning and stain removal

- 3 types of natural active enzymes for removing general grime and stains caused by grease / oils, mold, food and beverages
- Super concentrate - 3 to 4 capfuls in a bucket of water for regular mopping
- Effective heavy duty cleaning or stain removal - use higher concentration
- Use indoors; domestic / commercial applications

#### Suitable indoor surfaces include:

- All natural stone, tiles, bricks, pavers, concrete, masonry and grout
- Floors, patios, bathrooms, kitchens, eating and entertaining areas

#### Safety and the environment:

- Safer to use than many traditional chemical cleaners
- Zero VOC

## EFF-ERAYZA™

### Efflorescence, grout haze, rust marks & limescale remover

- Removes efflorescence, grout haze, rust marks, limescale, soap scum, fireplace soot and mortar mess
- Cleaning of paving / poured concrete (neutralize with Oxy-Klenza™ immediately after cleaning and before rinsing)
- The power of dangerous, traditional acids without the toxic fumes
- Temporary contact does not burn skin
- Almost zero corrosion of metals (except uncoated aluminium)
- Etch marble & other acid-sensitive stones to create honed / non-slip surface
- For indoor, outdoor use; domestic / commercial use

Efflorescence

Grout haze

Rust mark

#### Suitable surfaces include:

- Non-acid sensitive stones / surfaces, including granite, slate, basalt, brick, ceramic & porcelain tile, terracotta. **WARNING:** will etch marble, limestone, travertine, onyx
- Patios, driveways, garage floors, walls, facades, kitchen, bathrooms, swimming pool surrounds

#### Safety and the environment:

- Safer to use than muriatic (hydrochloric) & other traditional acids – no toxic fumes; temporary contact does not burn skin
- Environmentally sensible – breaks down into natural salts

## REJUVENATA™ for Countertops

### Cleans and protects natural stone countertops

- Gentle daily cleaner for natural stone / engineered stone countertops
- Contains invisible sealer to enhance protection and make cleaning easier

#### Suitable for:

- Natural stone, engineered stone, polished concrete countertops

#### Safety and the environment:

- PFOA and PFOS free
- Water-based, ultra low VOC

# PRODUCT SELECTOR

PROTECT	Coverage rate per quart	sq. ft	sq. m
<b>Stain-Repella™</b> Invisible penetrating sealer	Basalt	80	8
	Brick	60	6
	Clay / concrete paver	70	7
	Granite - honed	100	10
	Granite - polished	150	15
	Limestone – honed	70	7
	Marble / porcelain - polished	120	12
	Sandstone	50	5
	Saltillo	50	5
	Slate	80	8
	Terracotta	60	6
	Travertine – honed	70	7
	Travertine - polished	100	10
	Grout lines - 300 linear ft / 30 linear m	n/a	n/a

ENHANCE	Coverage rate
<b>Paver-Finisha™</b> Color enhancer and protection for highly porous concrete pavers	<b>Dry pressed concrete pavers:</b> 160 to 240 sq.ft./gallon (16 to 24 sq.m. per 3.8L)
	<b>Wet cast concrete pavers:</b> Up to 320 sq.ft./gallon (Up to 32 sq.m. per 3.8L)

CLEAN	Dilution rate
<b>Rejuvenata™ Active - Indoors</b> Regular cleaning Heavy duty cleaning	4 capfuls in a standard 2.5 G/10L bucket of warm water
	1/3 bottle in a standard 2.5 G/10L bucket of warm water
<b>Rejuvenata™ Spray - Countertops</b>	Ready to use
<b>Oxy-Klenza™ - Outdoors</b> Heavy duty cleaning	1/3 bottle in a standard 2.5 G/10L bucket of warm water
	Start by mixing the below recommended amount of Eff-Erayza™ in a standard 2.5 G/10L bucket ¾ filled with clean water. Add more Eff-Erayza™ if needed.
<b>Eff-Erayza™</b> Efflorescence Rust stains Fireplace soot	1/2 quart bottle (approx. 500 mL)
	1/4 quart bottle (approx. 250 mL)
Grout haze Limescale Soap scum Mortar mess	1 quart bottle (946 mL)

RESTORE	Product
Stain removal	Oxy-Klenza mixed into a poultice. For more information visit <a href="http://www.drytreat.com">www.drytreat.com</a>
