Comments:
 The samples were immersed in bleach for 15 seconds and rinsed with water. This process was repeated 25 times. Stain testing with olive oil was conducted. Granite sealed with Stain Proof Meta Creme is equivalent to Class 5 for stains with filming actions.

INFORMATIVE ANNEX P FROM AS 4662:2003 (ISO 13006:1998)

This test is compulsory for glazed tiles. For unglazed tiles, where staining may be a problem, it is recommended the manufacturer be consulted. This method does not address the temporary colour changes that may occur in certain types of glazed tile due to the absorption of water in the body under the glaze.
