CASE STUDY

Vancouver, Canada

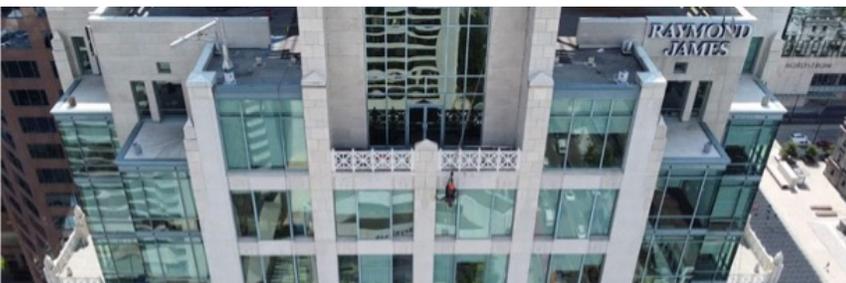

STAIN-PROOF
CARE + MAINTENANCE SOLUTIONS
by DRYTREAT

THE PROJECT

The Cathedral Place is the first entirely new office development in downtown Vancouver to significantly address the architectural heritage of its site. Built by the Shon Group of Companies in 1991, it is a 392 Ft high, 23 story building in Vancouver, BC, Canada.

SPECIAL REQUIREMENTS

Protect against staining, but also structural damage caused by water ingress, freeze-thaw spalling, and salt efflorescence without affecting the look or breathability of the material.

- 40SK Consolidator & Water Repellent
Premium Impregnating Sealer
- Limestone Clad Building
- Commercial
- Vancouver, Canada
- NUVOCLEAN Surface Restoration
A STAIN-PROOF ACCREDITED APPLICATOR

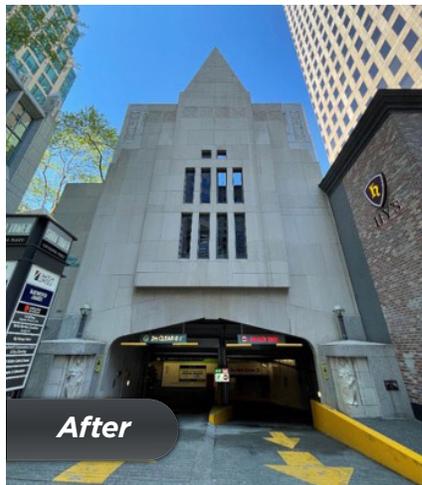

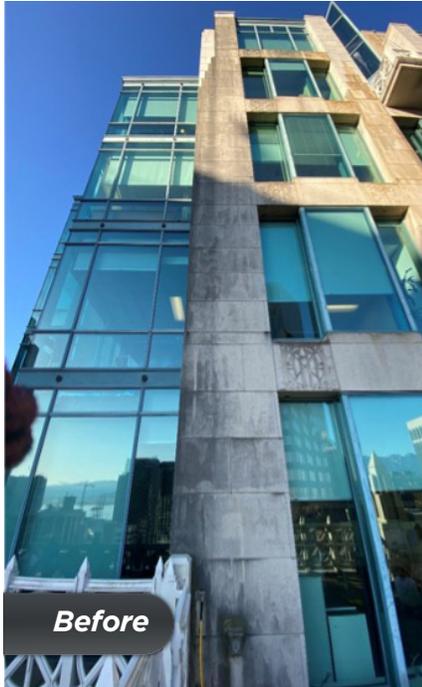

SPRING 2022

SOLUTION

After the NUVOCLEAN Restoration team cleaned the facade, the first 3 stories, which are made of granite, were protected by STAIN-PROOF® Premium Impregnating Sealer.

The cladding of the building to the top, a facade of beautiful Indiana Limestone, was sealed with STAIN-PROOF® 40SK Consolidator & Water Repellent.

Over
150,000 Ft²
of natural stone
to be protected
for years to
come with
STAIN-PROOF®
sealers.
