## CLEAR TRACTION COATING

Clear Traction is a unique, specially formulated coating that will increase the COF (coefficient of friction) on surfaces that may become slippery when wet. Clear Traction will add additional traction without sacrificing the beauty or appearance of the floor that it is applied on.

Clear Traction is resistant to staining, abrasion and etching. The UV stable, non-yellowing formula is ideal for outdoor, indoor, residential and commercial installations.

**NEW  
PRODUCT**

### BENEFITS

- Clear, protective texture coating that adds COF (Coefficient of Friction) to hard surfaces
- Use on a variety of commonly slippery surfaces, such as natural stone, cement, porcelain, ceramic, vinyl and wood floors - inside or outside
- Effective for pool areas, showers, bathrooms, stairs
- Slip resistance coefficient of friction > 0.5

## STAIN-PROOF'S IMPREGNATING SEALERS AND CLEANERS

### THE TECHNOLOGY THAT SETS US APART

Stain-Proof® sealers are formulated using a unique sealing technology – our sealer molecules are approximately 400+times smaller than other impregnators and penetrate much further into the pores to form a deeper water and oil repellent barrier, providing optimum protection to surfaces such as natural stone, bricks, pavers, tiles, engineering concrete and grout. **Stain-Proof also offers daily and heavy-duty cleaners specifically formulated to tackle a variety of needs. To choose the perfect care and maintenance solution for your project, visit [stain-proof.com](http://stain-proof.com).**
