

# Hamilton Island Residence

**Surface Type:** Cobb & Co Slate | **Products Used:** INTENSIFIA™ | **Completed:** September 2014 |  
**Location:** Hamilton Island, QLD, Australia

**Applicator:** Australia Blue  
**Email:** johrina@australiablue.net  
**Phone:** 0414 858 185

## THE PROJECT:

Hamilton Island is a popular Great Barrier Reef tourist destination in Queensland, Australia. It is located just off the coast of Queensland. Johrina from Australia Blue was tasked with the enhancing of 658m<sup>2</sup> (6580 sq ft) of slate in one of Hamilton Island's residential property.

**After**

## SPECIAL REQUIREMENTS:

- Deep colour enhancement
- Superior water and oil-based stain protection
- To keep the surface looking good for longer

## THE DRY-TREAT SOLUTION:

The special requirements for the project called for INTENSIFIA™. The enhancer and sealer combination will provide lasting protection from water and oil-based stains while providing deep colour enrichment. The water and oil repellency makes the surface easier to clean and keeps it looking good for longer. Dry-Treat offers a 5-year warranty on INTENSIFIA™ when applied by Accredited Applicator.
