

# Puerto Vallarta Condo - Tower

**Surface Type:** Brick | **Products Used:** STAIN-PROOF™

**Completed:** September 2015 | **Distributor:** Marble Trend

**Applicator:** Darrin Bast | **Email:** info@darrinbast.com | **Phone:** + 52 322 168 4086

## THE PROJECT:

Puerto Vallarta is a Mexican beach resort city situated on the Bay of Banderas brimming with hotels, resorts, and luxury condos.

The property has a 7-storey brick tower in one of its corners. With the condo located close to the coastline, the approximately 5400 sq ft (540sqm) tower will be subject to its harsh weather conditions. The owner turned to Dry-Treat's unique sealing technology for protection and to keep the tower looking good for much longer. STAIN-PROOF™ Original was applied from top to bottom.

## SPECIAL REQUIREMENTS:

- Superior water repellency and protection against the weather conditions on the coast
- Superior breathability, to ensure easy escape of the moisture inside the material
- To keep the surface looking good for longer and make cleaning easier, quicker, and less costly
- Sealer is permanent – no need for resealing

## THE DRY-TREAT SOLUTION:

Before applying STAIN-PROOF™ Original to the whole tower, a test area was made to evaluate STAIN-PROOF's effectiveness.

When the results were satisfactory, STAIN-PROOF Original™ was used on the entirety of the brick wall. The sealer creates a **deep, breathable, permanent** water and oil-based stain-repelling barrier, allowing trapped moisture to evaporate. With STAIN-PROOF's permanence, the surface does not need to be resealed. STAIN-PROOF's superior stain repellence keeps the surface looking good for longer, minimizing the maintenance cost.

STAIN-PROOF Original™ comes with a 15-YEAR PERFORMANCE WARRANTY when the product is applied by an Accredited Applicator.
